About Me

Hello! I'm Nguyen Si, a passionate web developer and designer with a focus on creating immersive digital experiences. I specialize in building modern, responsive websites with clean code and stunning visuals.

With a background in both design and development, I bring a unique perspective to every project, ensuring that aesthetics and functionality work together seamlessly. I'm constantly exploring new technologies and techniques to stay at the forefront of web development.

When I'm not coding, you can find me exploring creative photography, learning about astronomy, or experimenting with digital art. I believe that these diverse interests inform my approach to web development, allowing me to create truly unique digital experiences.
